

Accessibility

This website has been built from the ground up with accessibility in mind. We have taken all steps possible to make sure this website is accessible to all. Pages within the website are valid XHTML 1.0 Transitional and the Style Sheets used conform to CSS 2.0.

Text Size

If you find the text on this site is too small, you can change it easily in your browser settings. Simply follow the instructions below based on the browser you are using.

If you use Microsoft Internet Explorer, go to the View menu, select Text Size and then either Larger or Largest.

If you use Mozilla Firefox, go to the View menu, select Text Size and then click Increase. Repeat to continue increasing the text size.

If you use Netscape Navigator, go to the View menu and choose Increase Font until the text is the size you require.

Access Keys

Access keys have been included to assist users with disabilities when navigating their way through the web site. As keyboard shortcuts, access keys provide quick and easy access to common pages without the need for a mouse. To use an access key in Windows, hold down the Alt key and press the necessary character from the list below. Apple Macintosh users need to hold down Control and press the appropriate access key, and then press Enter to activate the link.
