

Crown Prosecution Service

The Crown Prosecution Service was set up in 1986 to prosecute criminal cases investigated by the police in England and Wales. In undertaking this role, the CPS advises the police on cases for possible prosecution, reviews cases submitted by the police for prosecution, prepares cases for court and presents those cases at court. The CPS chose the Zanzibar P2P and eMarketplace Solutions, delivered by ProcServe, to drive their Procurement Efficiency agenda and benefit from substantial savings across their procurement function. Zanzibar also enabled the CPS to advance the Sustainability Agenda within the organisation.
