

Management Information

The ProcServe Management Information solution includes pre-built and custom reports in an easy-to-use interface to provide purchasing teams with insightful data on spending patterns and cycle time.

The ProcServe Management Information warehouse includes:

- Interactive reporting down to line by line detail, providing clear visibility of what is being spent where, along with clearer, no hassle visibility of real supplier performance information
- Interactive dashboard and executive analysis tools for procurement and supply chain performance management, enabling procurement professionals to focus on more value added activities

Organisations can view various types of reports including:

- Purchase Order Analysis
- Purchase Orders by UNSPSC Code
- Purchase Orders by UNSPSC Structure
- Purchase Orders by Organisation and UNSPSC Code with Multi-view
- Top 10 Suppliers
- Top 10 Buyers
